Duccio offered "la Cuba" at the CAMEC

Duccio is running the Bar that has opened during the summer at the evening at the CAMEC's terrace. During the week several films are projected.

On Friday 18th "Gegen die Wand" by Fatih Akin was projected and on Tuesday 22nd "Caramel" by Nadine Labaki. For these occasions Duccio and Marcello planned a special night. They prepared "La Cuba" and gave it everyone to taste it. Before the films where projected, Duccio presented the Love Difference Pastry Project. Around 100 visitors were presented and enjoyed the film and the sweet.

Together they are planning on combining the presentation of a sweet with the projection of a film another few times at the terrace of the CAMEC.

Eva is planning the LDP event at the University

Eva had a meeting with the University to plan the Love Difference Pastry event. Some things are still not defined and others are provisional, but it is going to be really interesting. They are planning on combining the presentation of the project and a cookbook as well as musical activities. Moreover they are thinking that the university could offer during the Flemish "week of taste" (13-23 November) each day a main dish from the cookbook and a pastry as desert in its student and personnel restaurants.
